

INDEX

N. ANGHEL: Remark on Callias' index theorem	1-6
G. A. ASANOV: Finslerian and higher-order structure of space-time: Lie-invariance in fibres	263-287
VOLKER BACH: A proof of Scott's conjecture for ions	213-248
LARRY M. BATES: Geometric quantization of a perturbed Kepler problem	289-297
V. P. BELAVKIN: Multiquantum systems and point processes. I. Generating functionals and nonlinear semigroups	57-90
YU. M. BEREZANSKI, N. W. ZHERNAKOV and G. F. US: A spectral approach to quantum stochastic integrals	347-360
A. BETTE: On the Lorentz particle with spin — a twistorial approach	133-140
J. CISLO and Z. STRYCHARSKI: New Fermion solution on two-dimensional Ising model on a generalized square lattice	159-166
J. CISLO <i>see</i> Z. STRYCHARSKI and J. JANICKI	
A. CRUMYROLLE: Isotropic vector fields on spheres, spinor structures on spheres and projective spaces	27-37
G. DORFMEISTER: Graphwise defined retarded distributions for an LSZ-field theory	373-387
A. DVUREČENSKIJ <i>see</i> S. PULMANNOVÁ	
P. EXNER and P. ŠEBA: Free quantum motion on a branching graph	7-26
V. HEINEMANN <i>see</i> K. SANKAT	
H. ICHIMURA: Study on Maxwell equations:	299-316
H. ICHIMURA: Maxwell equations and constitutive relations	317-333
R. S. INGARDEN: Two speeches on mathematical physics	197-200
J. JANICKI <i>see</i> Z. STRYCHARSKI and J. CISLO	
Y. KERBRAT, H. KERBRAT-LUNC and J. ŚNIATYCKI: A geometric interpretation of symmetry breaking in electroweak interactions	201-212
H. KERBRAT-LUNC <i>see</i> Y. KERBRAT and J. ŚNIATYCKI	
G. MARMO and G. MORANDI: On the inverse problem with symmetries and the appearance of cohomologies in classical Lagrangian dynamics	389-409
MAKOTO MATSUMOTO: Randers spaces and constant curvature	249-261
G. MORANDI <i>see</i> G. MARMO	
H. NEIDHARDT: On the inverse problem of a dissipative scattering theory, II	39-55
V. L. OSTROVSKII and Yu. S. SAMOILENKO: Unbounded operators satisfying non-Lie commutation relations	91-104
E. PRUGOVEČKI and S. WARLOW: Geometro-stochastic quantization and parallel transport of fermion fields in curved spacetime	105-131
S. PULMANNOVÁ and A. DVUREČENSKIJ: Sum logs and sums of unbounded observables	361-371
U. QUASTHOFF: On automorphisms of von Neumann algebras constructed by measure space transformations I	411-423
U. QUASTHOFF: On automorphisms of von Neumann algebras constructed by measure space transformations II	425-437
